Spring 2025

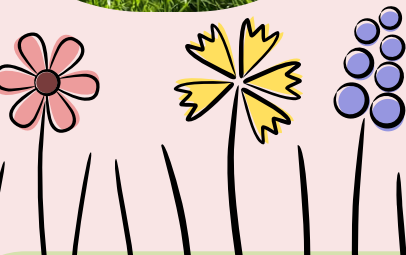

Mobey

Hello Spring!

Spring is a time for fresh, new beginnings. This spring we welcomed some new faces to our barn. Pepper and Kramer are our two new goats.

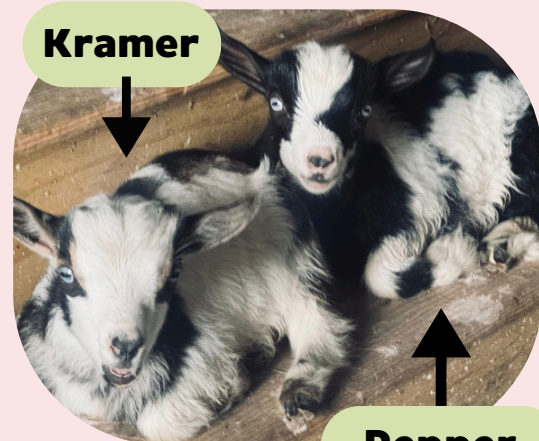

They will be used in our therapy programs. They have already brought smiles to over 1000 (yes, you read that right) students at Cornell University. We also welcomed Mobey the micro mini Highland. An anonymous donor is generously sponsoring Mobey. Mobey is currently in training to be used in our therapy programs as well. These programs have proven to make a powerful impact on the community.

Along with food, bedding and general care for the animals, donations this season went towards:

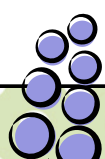

- Transporting 3 new cows; Tonka, Nila and Ferdinand to their forever home.
- Dental exams and "pedicures" for our horses.
- Spring vaccinations

Thank you all who have donated this season!

Pepper

Out of the Barn

We had the pleasure of working with four Cornell University students as part of the Dyson School of Applied Economics and Management Grand Challenges program.

Our dedicated group committed to helping Chester's Barn with website updates and social media outreach. We wish them well as they graduate and move on to their next chapter!

We were also at two Cornell University events, Art of Ag Day, hosted by Cornell Sigma Alpha and the Stress Buster BBQ hosted by NY FarmNet.

This end of semester event brought over 1500 students! The end of college semesters are very stressful for students. The volunteers and our animal friends at Chester's Barn were very happy to lend some support!

Upcoming Events

May is Mental Health Awareness Month! Special Visits will be made to:

- Westminster Manor, Adonia Salon and Spa, Lyons Bank, Huntington Living Center, CFCU, CLNB, Filtrec Corporation

Free Family Event: Dairy Day at Muranda Cheese, Waterloo, NY June 7th 10AM-4PM
